

Southville International School and Colleges STUDENTS AND PARENTS' BULLETIN

No. 10 A.Y. 2024 - 2025

November 8, 2024

Monarchs excel in various sports arenas

Congratulations to Yasmin Ahmed of SISC for a stellar performance at the Skate Philippines Championships 2024, taking home 5 golds and 1 silver!

Southville International School and Colleges (SISC) athletes carry their winning streak across different sports with **Yasmin Ahmed** getting **5 gold medals** and **1 silver medal** in the **Skate Philippines Championships 2024** held at the SM Mall of Asia's Ice Skating Rink last October 20 & 21, 2024. She took the **gold** in the **character spotlight, artistic, technical, team compulsory, and jump & spin events**, and the **silver** in the solo compulsory.

Vision

Southville International School and Colleges is recognized nationally and globally in the delivery of international education to develop lifelong learners, excellent in academics and values, and movers of society who will make a difference in the 21st century.

Mission

SISC is committed to develop lifelong learners who are equipped with the 5Cs (Competence, Character, Commitment to Achieve, Collaboration, Creativity, and Innovation) through data-driven and technology-enhanced educational programs to ensure student success in the 21st century.

Celebrating Kate Tulabot's outstanding achievement at the Skate Philippines Championships 2024

Another skater brought home 2 gold and 2 bronze medals in her level from the same tournament. **Kate Tulabot** ranked first in the light entertainment and character spotlight, and third in the stroking and technical events.

Congrats to Luca Brambilla and Yuki Togawa for winning bronze at the Oblation Fencing Cup 2024!

In fencing, **Luca Brambilla** and **Yuki Togawa** bagged bronze medals in the Oblation Fencing Cup held last November 2 & 3, 2024 at the Oblation Fencing Club in Quezon City. Brambilla won in the men's foil category (under 8 years old) while Togawa prevailed in the women's foil category (under 11 years old). Both are part of SISC's Worthwhile Weekend Program in fencing.

Reminders:

1. Be in the testing room at least 15 minutes before the time.
2. Charge all calculators before coming to school.
3. Bring own pencils, calculator, ruler, and ballpens. All these stationeries must be placed in a clear pencil case or bag. Borrowing of test materials are not allowed.
4. Only clear water bottles are allowed inside the testing area.
5. Electronic devices such as mobile phones and smart watches are not allowed.

SISC hosts open house for high school seniors

SISC will open its doors to college-bound students on Saturday, November 16, 2024 during “**Southville Youth Fest 2024.**” The event is **free and open to senior high school students** to give them a chance to experience college life, and look at what their future could hold. There are also **fun activities** lined up, plus **booths** featuring Anime, K-pop, Taylor Swift, and more.

The open house will provide prospective students and families an **opportunity to engage** with current students, administrators, faculty and staff; receive information about the degree programs offered; ask questions; and tour the campus. It will give them a window to get an **up-close and personal look** at the College Division and learn how a degree from SISC can help them change their lives.

The courses offered in SISC include Accountancy, Business Administration major in Marketing Management, Human Resource Management or Financial Management, Communication,

Computer Engineering, Education, Information Technology, Multimedia Arts, Nursing, Psychology, Real Estate Management, and Tourism.

UNVEILING THE BENEFITS OF HARD WORK FOR KIDS

Building Self-Confidence

Hard work is a powerful way to boost a child's self-confidence. It's akin to the sense of pride that comes from recognizing one's own abilities. As children accomplish tasks through effort and perseverance, they not only unlock their potential but also realize their capacity to shape outcomes. This experience serves as a confidence builder, fostering a sense of achievement and self-worth. They begin to understand that with determination, they can turn challenges into opportunities, ultimately gaining greater control over their results.

Developing Problem-Solving Skills

Finding a flawless solution to a challenging problem is not magic, but the result of consistent and focused effort. A child's ability to solve problems can be significantly enhanced through hard work. As children dedicate time and energy to complex tasks, they naturally develop a more strategic approach to problem-solving. They learn to tackle issues from different perspectives, evaluate potential solutions, and make well-informed decisions. Refining strategies and adjusting plans become second nature. This skill not only aids in academic endeavors but also prepares children to navigate everyday challenges with confidence and ease.

Fostering Persistence and Resilience

Those who believe in the power of hard work recognize that setbacks are simply stepping stones on the path to success. The practice of persistent effort teaches children the invaluable traits of perseverance and resilience. When children continue to pursue their goals, despite facing obstacles, they learn to recover and grow stronger with each setback. These qualities—persistence and resilience—help them navigate academic challenges and lay the foundation for success in life. It's a crucial lesson in understanding that success rarely comes right away, and that consistent effort is what allows them to overcome failure and keep moving forward.
