Southville International School and Colleges Senior High School Division Successfully Conducts Mass Casualty Incident Training

Las Piñas City, Philippines, November 21, 2024 – Southville International School and Colleges (SISC) Senior High School Division, in collaboration with the Red Cross Youth Organization, successfully conducted a Mass Casualty Incident (MCI) training on November 21, 2024, at the Monarch Hallway. This initiative was part of the Science-Disaster Risk Reduction Management (DRRM) subject for HUMSS, GAS, and ABM strands, aligning with the school's commitment to fostering well-rounded individuals prepared for real-world challenges.

The training aimed to equip students with essential first-aid skills and emergency response protocols, empowering them to become proactive leaders and effective first responders during potential disasters such as earthquakes and fires. Through hands-on simulations and expert guidance from Red Cross volunteers, participants learned vital techniques, including:

- **Triaging patients:** Prioritizing treatment based on the severity of injuries.¹
- **Basic first aid:** Administering immediate care, such as wound dressing and CPR.²
- **Emergency response procedures:** Coordinating efforts and evacuating victims safely.
- **Psychological first aid:** Providing emotional support to victims and responders.

By actively participating in this training, SISC students demonstrated their dedication to community service and their willingness to contribute to disaster relief efforts. This experience not only enhanced their academic knowledge but also cultivated a sense of empathy, responsibility, and resilience.

SISC remains committed to providing holistic education that empowers students to become responsible citizens and compassionate individuals.³ By incorporating practical, real-world training into the curriculum, the school ensures that its graduates are well-prepared to face any challenge and make a positive impact on society.
